PROJECTS

Community-Based Ocean & Coastal Cleanup Management System | React.js, Spring Boot, MySQL

- Built the pollution-reporting module of a multi-tier web system with a 6-member final-year team, using a shared GitHub workflow.

Synapse – Brain Training Web App | React, Vite, Tailwind CSS, Vercel

- Developed and deployed a live web app with 3 cognitive games, a date-seeded daily challenge, XP levels and streaks.

Site Redi – Web Design Startup Website | Vercel

- Built and deployed the website for my startup offering affordable websites to Sri Lankan small businesses, with a language switcher.

Shipment & Logistics Management System | TypeScript, React, Vite

- Built the frontend of an MIS project for tracking shipments, implementing screens from Figma designs.

WordPress Theme UI Designs | Figma, WordPress

- Designed 6 WordPress theme UIs in Figma for blog, news, travel and gaming websites.

Tasty Haven – Restaurant Website | HTML, CSS, JavaScript

- Created a responsive restaurant website as my first front-end project.
